

How to Manage a Multi-Generational Workplace

Identifying the needs and motivations of different generations in the workplace can help you understand the dynamics of managing a multi-generational workplace.

The values and attitudes of each group can vary greatly, so the effectiveness of your workplace can reduce misconceptions, biases and inherent conflict.

This presentation will teach you how to use leadership skills to create and sustain a culture that not only brings people of all ages into your workplace, but keeps them there.

Attend this **no cost** information session

Wednesday, October 26, 2011
